

## Connecting Experience Spot Your Difference

AGE GROUP

7+

AMOUNT OF PEOPLE

10+

TIME

20 MINUTES

OBJECTIVE

To see what things they have in common and what differences they have.

MATERIAL

Chairs arranged in a circle

### Instructions

Arrange the chair in a circle and have all the participants sit down.

Each member takes it in turn to say one thing they think applies only to them (e.g. I live in the countryside, I've visited two countries, I play football).

If that statement applies to another person in the group, they come and sit on that person's lap. If someone is sitting on their lap they cannot move even if a statement applies to them.

Continue around the circle with the person sitting on top getting to say a statement.

The winner is the person with no one sitting on their lap at the end.

### Debrief

- ▶ Were you surprised by what you had in common?
- ▶ Were you surprised by the differences in the group?
- ▶ Do you think if you played with a group from another organisation or country there would be more differences? What do you think they might be?
- ▶ Do you think it's good to have a difference in the group? Why?
- ▶ Have you ever seen anyone being treated badly because of something which makes them different? Do you think there's something you could do to stop this?
