

Connecting Experience Transportation Game

AGE GROUP

7+

AMOUNT OF PEOPLE

10+

TIME

40 MIN

OBJECTIVE

To learn about different forms of transportation and what impact they have on the planet.

MATERIAL

Cards with the names of forms of transportation

Instructions

Split the participants into small groups. The leader calls out a name of a type of transportation:

- ▶ Plane, train, car, bicycle, on foot, bus, motorbike

Depending on your region and population, choose a group of people who have different access needs, for example: children, the elderly, people with reduced mobility. Find out what needs these groups have, and what rules exist to protect these needs." On the same activity on website there is some extra text at the end that should be deleted "d when creating a new product

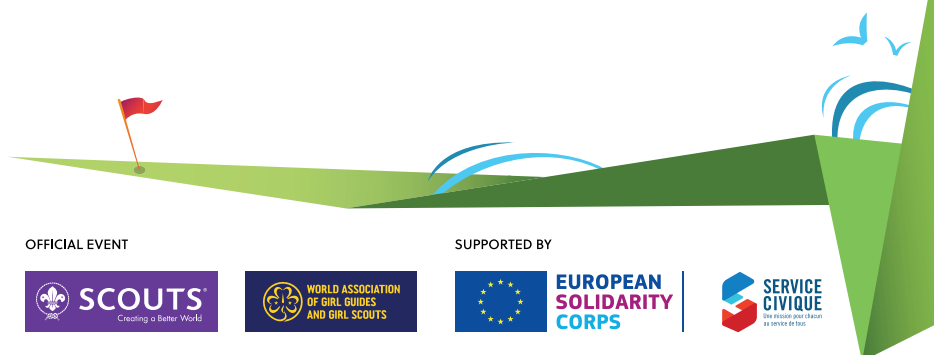

For each one, each team has 3 minutes to mime it, all participants must be part of it. The leader chooses a winner and gives them the card of that transportation.

When they have finished miming all the transportation, they must class them in the order of the most polluting to the least polluting.

Plane > car > bus > motorbike > train > bicycle > on foot

Debriefing:

- ▶ Are you surprised by the order?
- ▶ Do you think that means that we shouldn't travel by plane?
- ▶ What type of transport do they use on their daily life? If it's not the best, do they think they could try to use something else?
