

## Connecting Experience Improve Your Area

AGE GROUP

11+

AMOUNT OF PEOPLE

5+

TIME

1 – 2 WEEKS

OBJECTIVE

To make a positive impact on their community, and work together to improve a space for everyone.

MATERIAL

Project dependent

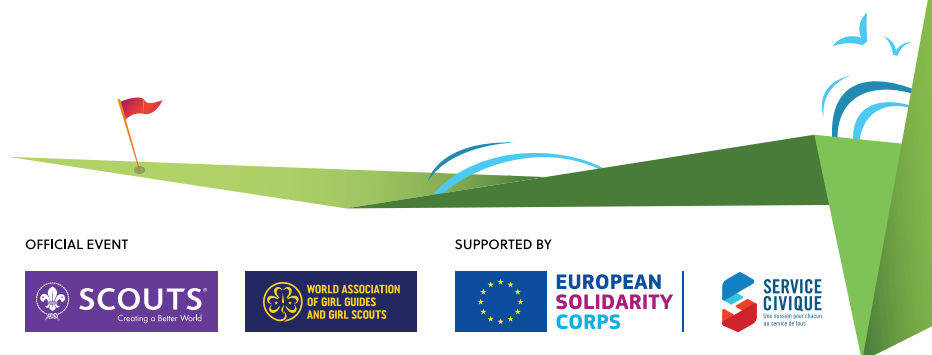

### Instructions

As a group or in patrols, discuss ways your area could be improved. You could look at ways to make an area more accessible, make it safer, tidier, more welcoming, anything you think would be an improvement.

Some suggestions: organise a beach clean up, create a mural, plant some wildflowers, paint over graffiti, repair outdoor furniture

Once the groups have chosen their projects, they should do research to find out what permission and materials they need for their project. Encourage them to create a step by step plan for how they will achieve their goal, have them think about what steps they can complete alone and what they might need more help with, if they need and funds etc.

Encourage them to think about the future of their project, what steps can they take to ensure their positive change stays positive and doesn't return to how it was before the project.
