

Connecting Experience Stop the mess!

AGE GROUP

11+

AMOUNT OF PEOPLE

3+

TIME

1 – 2 WEEKS

OBJECTIVE

To help an area stay clean.

MATERIAL

Project dependant

Instructions

Explore the different water-based locations in your area, such as riverbanks, lakes, beaches etc. Choose one to focus on, or more if the group is large.

If there's a group in your area doing the 'Water Clean Up' action, you could join them, creating something to help the area they clean to stay clean.

Participants should work together to come up with something they think will help keep the area clean, such as building bins to make it easier to throw trash away or creating signs that encourage people to think before they throw something.

Note: ensure you get the relevant permissions for your project
