Instructions

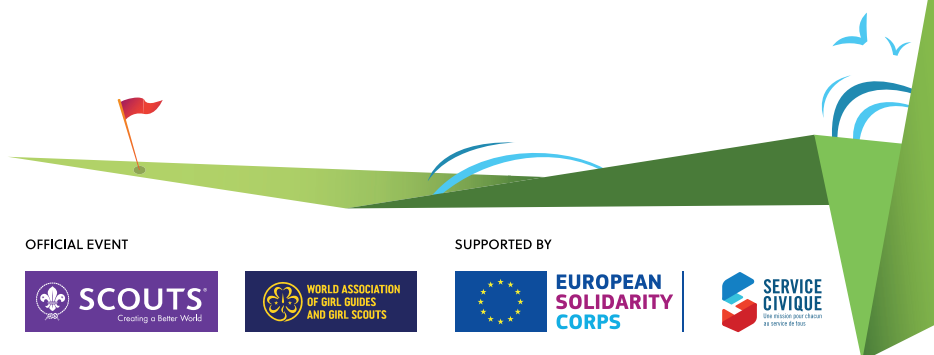

Have the meeting in a place with access to nature, it could be a park, a forest, a field etc.

In small groups, participants should create a piece of art out of what they can find in the area. Such as fallen leaves, branches etc.

When all the groups are finished, look at all the works. Like the art they have created, the nature around them will not last forever.

Debrief:

- ▶ What are the good things about the forest?
- ▶ What can you do to protect the natural environment?
