

Connecting Experience

Check your brands

AGE GROUP

11+

AMOUNT OF PEOPLE

5+

TIME

1 HOUR

OBJECTIVE

To become aware of the working and manufacturing conditions of the products we use daily.

MATERIAL

Internet/access to a library

Instructions

Begin by creating a list of the groups favourite brands, focusing on things they use every or nearly every day.

From the list each group should choose two or three brands they want to research. They should focus on the brands policy regarding working conditions.

- ▶ What country do they manufacture their products in?
- ▶ Do the workers have a decent minimum salary and decent working condition?

Each group should present the information they've learned with the other participants.

Debrief:

- ▶ What can you do to challenge this?
- ▶ Did what you learned make you think about not buying their product anymore?
