

Connecting Experience Innovative Invention

AGE GROUP

11+

AMOUNT OF PEOPLE

5+

TIME

2 WEEKS

OBJECTIVE

To explore their own innovative ideas.

MATERIAL

Paper/whiteboards and pencils/markers

Instructions

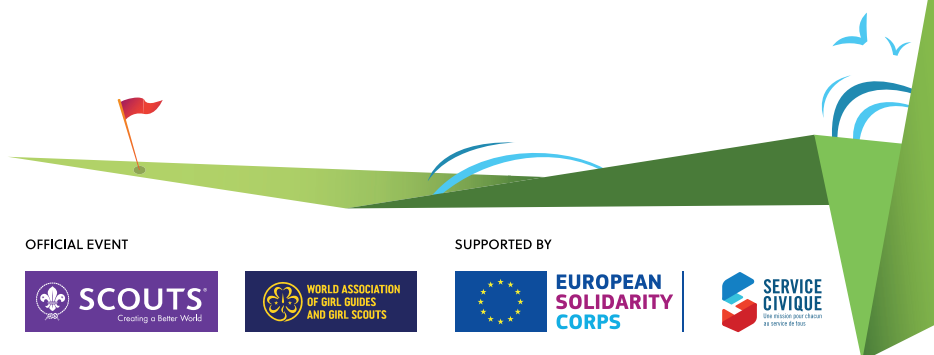

Split participants into small groups or patrols. Each group needs to create their own invention.

Encourage them to work through their idea step by step, starting by talking through their ideas, sketching concepts, choosing materials and then creating prototypes.

Have them consider what problem their invention could help solve, how to create it in an eco-friendly way, the market for this invention, etc.

If there is any one in your community that is working in invention or product design, the leaders could invite them in to talk about their process with the groups

Create displays of the groups work from idea to prototype and have them pitch their inventions to the other groups and members of the community.
